Driver Type	UVC (USB Video Class)
Operation System	Windows7/Win8/Win10 (32/64bit)/ Apple OSX Sierra+

FDA Inspected Class II Medical Device Facility.

FDA Listed Medical Device Manufacturer
(Establishment ID 3013464458).

ISO 13485 Certified Medical Device Facility/Manufacturer.

Intraoral Camera Resolution Quality Comparison

Note: Camera pixel resolution determines the size of both live and captured images displayed on your monitor. Magnification or Zooming to stretch the image to fill the entire monitor will cause severe pixelization when using 480p or 720p cameras. True 1080p pixel resolution displays full screen without any sizing or pixelization.

640 x 480 (480P)

1990's Tube TV and VCR technology.
95+ percent of cameras in use today are
low resolution 480P!

1280 x 720 (720P)

Early 2000's Low Resolution HD

1920 x 1080 (1080P)

True High Definition
